GCC 3D PRINT POINTS

+ A user-friendly 3D printing platform

Find 3D printing services near you, print your models or browse a large library of ready projects. 3D Print Points connect designers, printers and customers worldwide. All services are combined in one platform that provides the ultimate, fast and user-friendly 3D printing experience.

Sign in and use it
the way that suits you.

+ Discover the world of 3D printing

Select from thousands of 3D models in our library or upload your own and print them in a 3D Print Point in your local area or anywhere in the world to cut shipping costs. Market your 3D design services - expand our library with your latest models and sell them. Create your own 3D Print Point! Add your printers to the expanding network and start getting printing orders from customers worldwide.

DESIGNER

Sell your 3D models or add them for free and grow the 3D Print Points library.

Every time you add a new model, you can decide if you want to make it publicly available and then set a price for its download. Upload your models in STL and OBJ formats.

-
- Upload your model file.
 - Make your model Public (sell/share) or Private.
 - Provide model details, license and set its price.

3D PRINTER

Connect your 3D printer and offer services as one of 3D Print Points to reach global customers.

So you have your own printer and want to join it to 3D Print Points? That's fantastic! You can become a certified 3D Print Point and start earning on your 3D printing services.

-
- Provide your address details and shipping options.
 - Set the type of printer filaments you print with.
 - State your starting price and additional prices for your services.

CUSTOMER

Find 3D printing services near you and cut shipping costs, browse the large model library.

Find a 3D Print Point that suits you. Your model will be printed in and delivered from the selected point – all around the world. Ready! Set! Print!

-
- Choose a model from our library or upload your own.
 - Click the piece you want to print.
 - Click on the **PRINT IT** button and complete delivery details.

+ 3D printing is for everyone

We believe that 3D printing is not just for the tech-savvy. 3D Print Points is for everyone, but we care for the needs of each individual user. This is why we designed the platform and the network of services to be an approachable and attractive community hub that welcomes professionals and home enthusiasts, rising 3D designers or families looking for an engaging pastime.

+ Mission: Education

3D Print Points aim at popularization of 3D printing technology and sharing of experiences among enthusiasts and ordinary people by introducing additive manufacturing to schools and promoting it as an educational tool that is easy and accessible. We provide equipment, assistance and organize events – to great satisfaction of people at every age!

A large graphic on the right side of the page features the words "3D" and "PRINT" in a light blue, sans-serif font. The text is overlaid on a complex geometric design consisting of overlapping planes in shades of blue, yellow, and white, creating a 3D effect. The background of the entire page is black.
